Maximum Payment Options

- 6 Credit Cards
- 53+ Net Banking
- 98+ Debit Cards
- 7 ATM Cards
- 48 Bank's IMPS
- 16 Prepaid Instruments
- 12 Bank EMI

Smart Dynamic Routing Imagination meets reality. Switch transaction dynamically depending on bank's performance to ensure consistently high success rates .

On opting for our secured services, gateways of multiple banks are assigned across your account. Smart system detects the best performing gateway in terms of success rates and routes your transaction through it. In event of downtimes, scheduled maintenance breaks, load on the bank servers etc., Intelligent algorithms identifies the drop in success rates and automatically routes transaction through another bank's gateway. This ensures that the conversion statistics always remains on the higher end.
